# Most Heavenly Dessert Is An Angel Food Cake

By MRS. GAYNOR MADDOX

The low point of eggs makes high

lighting possible, so why not bake an

angel food cake?

CHOCOLATE MARSHMALLOW

ANGEL FOOD

Use your favorite angel food cake

recipe. But take it in a long bread

pan to give it an oblong loaf shape.

When cool, cut in diagonally

vanilla flavored marshmallows. And

when it is slightly firm, pour chocolate

sauce, drizzle over the top of the

marshmallowing (ing, allowing a little

of the chocolate to drip over the

sides.

MARSHMALLOW FROSTING

One and one-half cups sugar, 3-3

cups water, 1 tablespoon light corn

syrup, 4 tablespoons bottled marsh-

mallow cream, 2 egg whites, pinch

salt, 1/2 teaspoon vanilla.

Combine sugar, water, syrup and

corn syrup in a small saucepan.

Bring to a boil, then add egg

whites, which are dissolved. Then

cover and boil until sample of syrup

dropped into cold water forms a soft

ball.

Remove at once from heat, stir

in marshmallow cream. Beat

whites until stiff. Pour syrup

over this, and beat until the

whites, continuing to beat. Add

salt and vanilla and continue to beat

until all of aerating consistency.

CARAMEL CUSTARD CAKE

For 10 persons: granulated sugar, 7

eggs, 1 quart milk, pinch salt, 1

teaspoon vanilla, 1 layer sponge cake,

whipped cream.

Melt and brown 1 cup sugar in

pan. Pour into round baking dish

on top of browned sugar. Set

baking dish in moderate oven (350 de-

grees) for 10 minutes. Pour milk

and eggs over this. Stir until

well mixed. Bake for 45 minutes.

When sugar is dissolved, add vani-

lla. Pour this into baking dish

on top of browned sugar. Set

baking dish in moderate oven (350 de-

grees) for 10 minutes. Pour milk

and eggs over this. Stir until

well mixed. Bake for 45 minutes.

When sugar is dissolved, add vani-

lla. Pour this into baking dish

on top of browned sugar. Set

baking dish in moderate oven (350 de-

grees) for 10 minutes. Pour milk

and eggs over this. Stir until

well mixed. Bake for 45 minutes.

When sugar is dissolved, add vani-

lla. Pour this into baking dish

on top of browned sugar. Set

baking dish in moderate oven (350 de-

grees) for 10 minutes. Pour milk

and eggs over this. Stir until

well mixed. Bake for 45 minutes.

When sugar is dissolved, add vani-

lla. Pour this into baking dish

on top of browned sugar. Set

baking dish in moderate oven (350 de-

grees) for 10 minutes. Pour milk

and eggs over this. Stir until

well mixed. Bake for 45 minutes.

When sugar is dissolved, add vani-

lla. Pour this into baking dish

on top of browned sugar. Set

baking dish in moderate oven (350 de-

grees) for 10 minutes. Pour milk

and eggs over this. Stir until

well mixed. Bake for 45 minutes.

# Style Trend Is Winged Beauty

By DR. FRANK MCGOW

Sometimes it seems to me that

perhaps I do not write enough

about the very latest in fashions

which come when a human being

is so beautiful as this beauty.

The Creator meant every human

being to enjoy good health all

the time of his life. When a

state of man; and when it is

manifested, then something is

disturbing with nature. When

We study the art of healing, we

find that the ideal is to restore

the state of nature. When

This is the ideal—to help the patient

to be perfectly healthy.

This state of superabundant

health is evidenced in various ways

—it shows in a clearness of the eye,

a glossy sheen of the hair, a fresh-

ness of the complexion, and a

strong, sturdy body, which

possesses vitality and strength. The step

is light, the spine is straight, the

temper is pink, and the whole body

is alive with a tingling sense of

well-being.

These are some of the physical

benefits, but they are attended by

other benefits in the mental field.

Perhaps the greatest mental bene-

fit might be summed up by calling

it a zest for living. Let us be-

lieve very worth while when you are

hundred per cent well, a world

living, and you enjoy living it. It

is a zest for living. Let us be-

lieve very worth while when you are

hundred per cent well, a world

living, and you enjoy living it. It

is a zest for living. Let us be-

## BUYING POWER SOLUTION FOR MART PROBLEM

**Premier Aberhart Ad-  
dresses Livestock Union  
Convention**

Increased purchasing power affords the extra help of solving livestock and agricultural problems, Premier William Aberhart told the Western Canada Livestock Union at a banquet given Tuesday night by the provincial government in the Macdonald.

Chief obstacle to finding an assured market at a profitable price, he said, was that consumers who wish to take advantage of the abundance of livestock, lack the means to make their demand effective.

**TRADE TRE/TRE**

Trade treaties may ease the problem, but in the long run can be an adequate solution, he continued.

The premier remarked that he found it hard to see how all nations

Further, it seems that trade agreements may help one South of the country without bringing corresponding benefits to another or even at the expense of other

When ever a case is such situation, in which it is plain that a no advance should be made, it is plain that we should not start from tackling the problem in a new way and a new spirit," declared Premier Alberta.

The premier's speech, which he said was his maiden address to a livestock union, was devoid of any party or political spirit and limited itself to an analysis of the problems facing the livestock industry.

Chairman at the banquet was Hon. D. B. Mulloy, provincial minister of agriculture.

## FOLLOW FLAYS OTTAWA FOR 'PIFFLING' AID

Continued from Page Nine

\$2,850,000 in highway aid has obtained good value for its money and in its last year in office, the U.F.A. government had spent more on highways than this government had done in its three years in office.

### GIVES FIGURES

Dealing with the rural roads projects undertaken last year with the municipal share being financed through working out tax arrears, Mr. Fallow stated that the province had spent \$535,000 on this form of endeavor. Of this total \$279,000 was spent by the public works department, besides \$135,000 for local improvement district purposes and with \$50,000 spent on a special program.

Outlining the government's construction record for that since it had taken office, 271 miles had been graded to standard, 520 miles gravelled, 294 miles bituminous surfaced, 103 miles bituminous sealed and 67 miles re-treated.

In the six weeks the rural road program was under way last fall 68 miles were graded, 94 miles gravelled to standard and 103 miles sealed, and 972 miles opened for local use, which had never been opened before.

The province, he said, had \$3,852,000 in main highway funds available and the snow removal program expended 2,469 miles.

He challenged critics to show where any previous government had done so much for municipalities with regard to road construction, as had the present government in the last year.

### LARGE OUTLAY

Including the \$600,000 represented in road work done in payment of back taxes, secondary road construction in 1938 represented an outlay of \$1,560,000.

Turning to his charge of discrimination against Alberta in the matter of Dominion government assistance, Mr. Fallow declared that "the fact has come to the fore that the aid given the people of the province in the matter of highway aid has been reduced from the federal government."

Mr. Fallow then read from correspondence he had had with the Dominion government and with Hon. T. A. Crerar, minister of highways and resources at Ottawa in respect to the requests he himself had made in 1937 and 1938 for the road from McMurray to Goldfields.

On behalf of the province he had asked what it was necessary to do to obtain the \$250,000 grant said to be available for construction of highways into northern mining areas and later, while in Ottawa he and Premier William Abernethy discussed this with Mr. Crerar.

Mr. Crerar had said the end of the road would be terrific, said Mr. Fallow, while transportation costs over the road would be two or three times as great as by the water route.

### CHANGED MIND

Mr. Fallow said he was willing to join in the construction of a road from McMurray to Stony Lake, a distance of 14 miles, and said that this would get around navigation difficulties due to shallow water.

Mr. Crerar had asked if the province would spend \$250,000 on the road if the Dominion spent \$250,000 and he replied it would and that work would start immediately. He sent an engineering party north to McMurray. He then found himself engaged with protesting the transportation companies asking him to halt work and when he declined, they protested to Ottawa, where the result was that he soon received a letter from Mr. Crerar in which he said he did not want to participate in the scheme.

He had made applications locally and did everything in my power to get that \$250,000, but whenever he had the bill before me and I was willing to accept, Mr. Crerar pulled it away," said Mr. Fallow.

He said the province had proposed the Grimsby-Great Slave Lake road in the North West Territories to facilitate transportation for mining enterprises but the federal government had said it would cost \$200,000.

Last fall, said Mr. Fallow, mining companies met transportation difficulties. "The heat was turned on by the big interests," said Mr. Fallow, and in 24 hours he had been telephoned from Ottawa and preparations completed for construction of the road at a cost of \$250,000.

Referring to efforts to harden-up the Coquit-Lathbridge-Mackinac road in the south, Mr. Fallow said difficulties were encountered.

### THE DIFFICULTY

Mr. Fallow said the difficulty in getting assistance in road construction seemed to be "because we are not of the same political stripe as they."

"Failing to subsidizing transportation, Mr. Fallow said the Canadian National Railways was being subsidised about \$200,000,000 a year, highway transportation \$750,000,000 and water transportation \$200,000,000 a year.

The government in its three years in office had "done the water traps and snare set for us by atoll persons from the underworld," declared Mr. Fallow. It had forced the fire and come out more determined to have even to the top of the province than we have to do."

Summing up his statements regarding dealings with the Dominion he said that he must point out that the treatment "after responsible minister of the crown at Ottawa stops in each policy piffing stop ending Thursday of this week."

## ALBERTA CAN HELP WORLD SAYS JAMES

Declares "Financial Interests Have No Power Over Us"

People of Alberta have the power to bring relief to the whole world by the use of their own credit in terms of public need, N. R. James, S.C., Acadia, declared in continuing the debate on the Speech from the Throne in the legislature on Tuesday. "The financial interests have no power over us," he said.

Mr. James contended that if the government allowed to go on, credit would be going crashing down and it will be chaos.

He declared that the Social Credit forces would continue to press forward toward their main objective of economic freedom.

"The crisis in the world today is not of financial interests," he declared. "It is an economic crisis. The economic question is behind the Spanish war and the Chinese war and was behind the Great War."

He urged that solution of the economic question was the vital factor in the world today.

## BUYING POWER SOLUTION FOR MART PROBLEM

Continued from Page Nine

later of agriculture. Other speakers were A. C. Cameron, deputy mayor, who brought greetings on behalf of the city of Edmonton, Colin D. MacKenzie, vice-president of the Edmonton Chamber of Commerce, W. A. MacKenzie, K.C., managing director of the Edmonton Exhibition Association, Dean E. A. Howe, faculty of agriculture, University of Alberta, J. McColl, secretary of the same, and others.

### PRESIDENT THANKS

Various speakers were thanked by John Graham, Carberry, Man., president of the Western Canada Livestock Union, for their felicitations to delegates.

Entertainment was provided by Jack Smith, Carberry, Man. Following the address, those at the banquet went to the Old Timers Association dinner at the Hotel. Two problems face the livestock industry, the same, the technical, the other practical, remarked Premier Abernethy.

The purely technical problem of carrying on the industry has been solved, he said, but the practical problem of carrying on the industry has been carried off by livestock dealers at all competitions for time clock.

The only problem left is the practical or marketing one, and in dealing with that aspect of the problem, Mr. Abernethy, K.C., minister of agriculture, was invited to support from government bodies, he added.

Concluding remarks the city was extended to visiting delegates, by F. C. Connelman, who said that the city of Edmonton was proud to be known as the friendly city.

KEEN INTEREST

Edmonton Chamber of Commerce has through its fifty years of existence always taken a keen interest in livestock problems, as in agricultural questions generally, said Mr. Abernethy.

It was always ready to extend its kind offices to assist in the solution of agricultural matters, he emphasized.

Thinking the provincial government, Mr. Abernethy, K.C., minister of agriculture, was invited to support from government bodies, he added.

Concluding remarks the city was extended to visiting delegates, by F. C. Connelman, who said that the city of Edmonton was proud to be known as the friendly city.

# Looking Them Over

By Jack Kelly

Intermediates Boom

Slammin' Sam

Round-up Before 30

THE Canadian Amateur Hockey Association has just announced the most comprehensive plan for a western Canada intermediate hockey championship that it has ever attempted. Manitoba, Saskatchewan, Alberta and British Columbia will all be in the title chase. The finals will be staged at Vernon, B.C.

If the C.A.H.A. is fundamentally interested in keeping hockey alive in Canada, then this long-overdue attention to the intermediate division will do a maximum amount of good. It probably won't make any profit and will very likely lose some money, but the intermediates are an integral part of hockey and they deserve more than they have been getting.

Senior and junior hockey teams are impossible for the smaller towns to handle. It costs too much money to compete in these divisions. However there are a hundred towns as many small towns in the west as there are big cities with juniors and seniors and nearly all of these towns can compete in the intermediate classification.

But at the same time, the C.A.H.A. and its provincial branches are not wholly to blame for neglect that the intermediates have suffered. One of the chief difficulties is lack of adequate ice for play—especially at points where the intermediates will draw games. Related to this problem is the reluctance of intermediate clubs to complete their league schedules early enough to allow the playoffs to be completed on natural ice. This reluctance is a large factor in the clubs feeling that they can make more money playing league games at home than traveling all over the country on playoffs.

Another troublesome problem is the refusal of many intermediate clubs to co-operate with the C.A.H.A., on such matters as player registrations and other requirements of the association.

☆☆☆  
**Golf Stars Vent Views**

THAT other day Sam Sneed, the Slammin' Sam of the fairways, started something when he publicly opined that match play in championship golf was foolish and not a true test of golfing ability. Half a dozen other prominent pros opined right back that Sam was a bit screwy and asking badly the day he gave voice to that argument. Olin Thrie, Jimmy Demorest, Lew Diergel, Ed Dudley and Dick Metz are some who think Sneed is off his swing when he condemns match play.

However there are some things to be said in favor of Sam's contention. Match play undoubtedly gives the fairest comparison when all the cards are in. In match play a bad nine holes will eliminate you in the first round, even though your average play would have perhaps put you in the money if it had been match play for 72 holes.

On the other hand, though match play makes a champion out of the man who can click the ball and just part of the time. That is what the men are thinking of who say Sneed is all wet. Match play also provides a spur that will make a golfer strive for his best, more often than the steady pressure of medal play will. You have to be able to deliver in the pinches in match play, but at the same time you get spots where you can ease off. In medal play you have to shoot for birdies and eagles all the time if you want to be sure of hitting a prize.

**Roy Conacher Equals Season's Best Goal Record As Bruins Thump Hawks**

Scores Four Goals in One-Sided Boston Win of 5-2

BOSTON, Feb. 22—With young Roy Conacher equalling the season's goal-getting record for four goals for a game, Boston Bruins crushed Chicago Black Hawks 5-2 last night to block the Hawks' bid for fifth place in the National Hockey League.

The one-sided triumph related the top-line Bruins to their 19-point lead over New York Rangers during the second round of the 32-year-old Conacher, youngest member of the famous hockey family, scored one in the first and third periods and twice in the middle frame, to oust his season's total of goals to 17.

After the Bruins ran up a 4-0 lead in the opener, the Hawks became discouraged and disorganized during the second frame. They had only two shots against Boston's Bruins.

Conacher, who had scored 11 goals in 11 games, was unable to handle Cully Dahlstrom's second, the other Chicago tally in the finale.

After dominating Boston tallies were supplied by Flash Holm, Bobby Harbo, Dick Clapper and Woody Dumont.

LEADER: Chicago's Wayne, who scored 11 goals in 11 games, was unable to handle Cully Dahlstrom's second, the other Chicago tally in the finale.

After dominating Boston tallies were supplied by Flash Holm, Bobby Harbo, Dick Clapper and Woody Dumont.

LEADER: Chicago's Wayne, who scored 11 goals in 11 games, was unable to handle Cully Dahlstrom's second, the other Chicago tally in the finale.

After dominating Boston tallies were supplied by Flash Holm, Bobby Harbo, Dick Clapper and Woody Dumont.

# Irma Sextet Wins Hockey Tournament

By Jack Kelly

Roaring through a disorganized Fort Saskatchewan sextet to flash on the red light five times in the second period, Irma became the first holders of the Junior Chamber of Commerce trophy to win the title.

The six culminated a spectacular drive to the championship by the Irma hockey team, who scored four straight victories during their triumphal march, blasting the rubber pass opposing goalies 26 times, while holding their opponents to a slim four goals.

One of the highlights of the Irma drive was the play of Roy Smith, clever pivot, who took part in all four games with a broken hand. Smith broke two bones in his left hand in a game against Wainwright, the sixth and last game, but that didn't stop Bobby from playing his share for Irma. He just wrapped his injured hand in wool of tape and kept amping the opposition goalies in every game.

HAD IRMA: From the opening face-off the Irma sextet took command of the game. The first goal came in the first period, when Irma's backline gave them a 6-0 lead at the end of the second period. They held command of play till the final game when Fort Saskatchewan staged four and five minutes in a desperate attempt to tie the game.

Bobby Taylor netted the first three goals of the evening, teaming up with Lawson on all three efforts. The first goal of the game and goal of the evening came with C. Sherman of Fort Saskatchewan serving a tripping penalty.

Fort Saskatchewan scored the second goal for Irma, once on a pass from McGuire, Wainwright's goal was fouled and Irma goal before the period.

The decisive goal was determined Fort Saskatchewan offensive in the final period, driving home a pass from McGuire for the first goal and passing to Williamson for the second goal.

Fort Saskatchewan's serving tripping penalties.

LEADER: Roy Smith, who took part in all four games with a broken hand, was unable to handle Cully Dahlstrom's second, the other Chicago tally in the finale.

After dominating Boston tallies were supplied by Flash Holm, Bobby Harbo, Dick Clapper and Woody Dumont.

# Believe It or Not

... By Robert Ripley

COLEMAN, Feb. 22—Coleman Canadians defeated Turner Valley Oilers 5-3 last night and advanced to the final game of the fourth and last playoff berth in the Alberta Senior Hockey League. Coleman and Olds, the fourth-place club, each have three games to play. Edmonton, in sixth place, has only a mathematical chance of reaching the fourth spot.

Ed Sturk and Dan Sprout each tallied twice and Lloyd Sanderlin scored the other goal for Coleman. Coleman's victory was a 5-3 victory over Turner Valley.

COLEMAN OFFENSE: Coleman opened the scoring after fourteen minutes when Sturk shot past the helpless McKay. He had scored the first goal in the game after Sturk and McKay managed to get it away from stubborn Olds' checkers. A minute later the blonde bomber Alkinson equalized on a pass from Cairns.

Olds went ahead in the second period, twelve minutes after the start when Cairns and Alkinson cut cleanly through the Coleman defense to score. Coleman's comeback came in the third period when Sturk scored a 5-2 victory over Technical.

It was the fifth win in six starts for Coleman. The Oilers, who were in the middle of the season, were only defeat this season came from Strathcona senior team, who they met for the senior high school championship.

TECHNICAL: The Oilers battled even-tempered through the opening games which ended 1-1. Victoria senior scored a 2-1 victory over the Oilers at the end of the second and third periods. Last period Tech tally to win 3-2.

DEMPTION: Demption scored for Victoria in the last period, ending four and five men down the ice on a pass from the Oilers. The Oilers were only defeat this season came from Strathcona senior team, who they met for the senior high school championship.

TECHNICAL: The Oilers battled even-tempered through the opening games which ended 1-1. Victoria senior scored a 2-1 victory over the Oilers at the end of the second and third periods. Last period Tech tally to win 3-2.

# Thrilling Sky Race Is Won By Tycoon's Plane As Dark Falls In Yukon

**Career Ends**

MAYO, V.T. Feb. 22.—(By Air-gate)—A thrilling sky race against time was won last week by Livingston Wernecke, General Manager for the Transcontinental Corporation and its pilot, "Chuck" Grosz. With his navigation lights blazing, the Wernecke-Bellanca biplane rocketed over the frontier sky lanes at 200 miles an hour just as darkness was falling over the valley. Ten minutes later and the plane would have been forced to land in the dark as there are no lights at the local airport.

**BELOW**

Mr. Wernecke's arrival here Thursday marked the completion of another flight from San Francisco. The last leg of the flight from Mayo to Mayo was made in less than five hours. During the severe cold weather Pilot Grosz flew at 10,000 feet most of the way in. It was around 10 below here the plane landed.

The Transcontinental Corporation is the largest flying mining company in Mayo district and the general manager of the regular flight—the year trip to inspect and supervise operations. They have three mines in production on the Klondike. The Silver King, the Silver King and the Hecar are located at the Klondike, but are not yet started. They are expected to start in the summer.

# SENATOR SPENCE, AT 71, SUCCUMBS TO LONG ILLNESS

**Senator Spence, K.C., of Toronto, died at his home here last night. He had been in failing health for several months. He was 71.**

Prominent in legal and federal circles, Senator Spence was born in Toronto, Ontario, in 1859. He was a member of the Ontario Bar Association and a past grand juror of the Meaford Grand Lodge of Canada.

Senator Spence was born in Toronto, Ontario, in 1859. He was a member of the Ontario Bar Association and a past grand juror of the Meaford Grand Lodge of Canada.
